👤 Summary

Motivated and enthusiastic Front-End Developer with a solid foundation in web development technologies such as HTML, CSS, and JavaScript. Passionate about creating clean, responsive, and user-friendly interfaces. Eager to apply my skills in real-world projects, learn from experienced developers, and grow within a forward-thinking organization.

🎓 Education

02/2024 – 2025	Diploma Computer Engineering ECP, Cape Peninsula University of Technology The Diploma in Computer Engineering at Cape Peninsula University of Technology (CPUT) provides foundational knowledge in computer hardware and software. It focuses on practical skills in networking, systems maintenance, and programming. The program combines theoretical learning with hands-on training. Graduates are prepared for roles in technology and IT industries. CPUT emphasizes applied learning to ensure industry readiness.	Cape town
01/2019 – 2023	NSC, Phandulwazi High School The National Senior Certificate (NSC) is the official high school qualification in South Africa. It is awarded after completing Grade 12 education. The NSC certifies students' proficiency in various subjects and serves as a requirement for tertiary education. It is recognized nationally and internationally as proof of secondary school completion. The NSC aims to prepare students for further study, employment, or skills development.	Cape Town
09/2025	Software Development, Life Choices A full-stack development curriculum through which youth master coding foundations, life skills and professional development while crafting a digital portfolio that can kickstart their tech career. (Six months in a bootcamp environment and six months internship/work experience in LC Studio or with external partners)	Cape Town

Interests

Art

Passionate about art and visual design, bringing creativity and aesthetic awareness into front-end development to create engaging and user-friendly interfaces.

Chess

Enthusiastic chess player with a strong ability to think critically, plan strategically, and solve complex problems—skills that translate effectively into software development.

Music

Passionate about music, demonstrating creativity, discipline, and attention to detail—qualities that support effective and thoughtful front-end development.

Projects

02/2026 – 02/2026

E-commerce

Developed a full-stack e-commerce web application, "Township Eats", designed to connect users with local township food vendors. Built responsive and user-friendly front-end interfaces while integrating back-end functionality for product listings, user interactions, and order management. Focused on delivering a seamless user experience and promoting local businesses through digital solutions.

11/2025 – 12/2025

Front-end Development

Developed a front-end Human Resources (HR) web application focused on managing employee data and improving user interaction. Designed and implemented responsive user interfaces using modern web technologies, ensuring a seamless and intuitive user experience. Applied best practices in UI/UX design to create a clean and efficient layout.

03/2026 – 03/2026

OT Enterprise Systems

Developed an OT Enterprise Systems application using Oracle APEX, featuring an interactive dashboard for managing and visualizing business data. Designed responsive user interfaces, implemented dynamic charts, and created user-friendly navigation to enhance data accessibility and decision-making. Demonstrated strong skills in front-end development, low-code platforms, and database-driven applications.

Professional Experience

09/2025 – 04/2026

Trainee, Life Choices

Cape Town

Participated in an intensive software development bootcamp, gaining hands-on experience in front-end and full-stack development. Built real-world projects, collaborated with peers, and applied modern technologies to develop responsive and user-friendly applications. Strengthened problem-solving, coding, and debugging skills in a fast-paced learning environment.

04/2026

Intern, Life Choices

Cape town

Participated in a hands-on internship program focused on front-end and full-stack development. Assisted in building and maintaining web applications, collaborating with team members to design responsive and user-friendly interfaces. Gained practical experience with modern technologies such as HTML, CSS, JavaScript, and frameworks like Vue.js, Vuex,. Contributed to real-world projects, supported debugging and testing processes, and developed a solid foundation in software development best practices.
